

DELAND (Cont'd)

The equipment belonging to the DeLand Chapter has been donated to the various other chapters needing it. The remaining funds were donated to the Seed Pod account. We are very grateful for this donation but would rather have had the DeLand Chapter than the money.

All members of the DeLand Chapter are cordially invited to either join with the Halifax Chapter or to remain members at large.

LEAF SIGN LANGUAGE

Leaves effected	Signs	Element Lacking
All leaves	Stunted, yellowish veins often red.	Nitrogen
Old leaves	Small, twisted, off color Mottled yellow, veins purplish Gray, yellow blotches, veins green Edges purplish and brittle	Zinc Phosphorus Magnesium Potassium
Young leaves	Wilted, water no help Yellow, all veins green Yellow, large veins green Yellow, no veins green Only base of leaf yellow Tips and edges only yellow	Copper Maganese Iron Sulphur Boron Calcium

The above sign language was submitted by our Immediat Past President, Mrs. John Wylie. Perhaps it will be of some use when you have leaf symptoms that are puzzling.
